

AUSTIN E. KNOWLTON MEMORIAL SCHOLARSHIP

The University of Findlay is pleased to offer Ohio high school graduates a special scholarship thanks to the Austin E. Knowlton Foundation.

The Austin E. Knowlton Memorial Scholarship awards up to \$10,000 to first-year students and can be renewed annually for four years. Special consideration is given to students interested in majoring in mathematics or a mathematics-related field.

Scholarship Details:

- Up to \$10,000 awarded to the recipients, regardless of financial need
- Knowlton Memorial Scholarship is awarded in addition to other academic merit scholarships awarded by The University of Findlay
- Students are automatically considered for the scholarship when they apply for admission to The University of Findlay.

ABOUT AUSTIN E. KNOWLTON

Austin E. Knowlton was a 1927 graduate of Bellefontaine (Ohio) High School and a 1931 graduate of The Ohio State University, where he received a bachelor's degree in architectural engineering.

He was the owner of Knowlton Construction Company, established in Bellefontaine in 1937. In his lifetime, Mr. Knowlton designed more than 600 buildings, including more than 160 college and university structures across Ohio, along with many schools, hospitals and commercial and government structures.

A successful businessman and avid sportsman, Knowlton was a founding partner and chairman of the board of the Cincinnati Bengals and a minority owner of the Cincinnati Reds.

He is widely recognized for his philanthropic leadership, including a special interest in supporting education. The Ohio State School of Architecture is named in his honor, and the Austin E. Knowlton Foundation that he established provided funding for the Knowlton Library in Logan County.

Since Mr. Knowlton's death in 2003, the foundation continues to carry on his interest in providing support for higher education.

With a generous grant to the University, Findlay is pleased to be able to offer the Austin E. Knowlton Memorial Scholarship each year to a deserving student.

ABOUT THE MATHEMATICS PROGRAM

The University of Findlay's Mathematics Program provides a unique and interactive approach to learning! Students not only have the chance to weigh-in on what kind of courses are offered every year, but they also have the opportunity to participate in a very active Math Club and perform undergraduate research.

UF's Mathematics Program offers five emphasis areas to add marketability to your degree:

- Actuary preparation
- Engineering science
- Pure mathematics
- Computer science
- Operations research

EVIDENCE OF EXCELLENCE

100%

JOB & GRADUATE
SCHOOL PLACEMENT

Graduates of Findlay's Mathematics Program have 100 percent job placement rate and land jobs with Fortune 500 companies, government agencies, major insurance companies and in high schools across the United States. Graduates also have 100 percent graduate school placement with institutions all over the country.

ACTIVE

MATH CLUB

Students in UF'S Math Club participate in competitions and math conferences and put on events such as Barbie Bungee Jumping and stress buster parties.

TEACH

WITH A SECOND MAJOR
IN EDUCATION

It's easy for UF mathematics students to double major in education and graduate in four years ready to teach.

**STUDENT-
DESIGNED**

COURSE OFFERINGS

Students in the Mathematics Program get to decide what unique courses are offered each year. Courses students have chosen in the past include game theory, topology and financial math.

FIVE

EMPHASIS AREAS

UF's Mathematics Program offers five emphasis areas for students to tailor their degrees. Students can choose from actuary preparation, computer science, engineering science, operations research or pure mathematics.

**UNDERGRADUATE
RESEARCH**

Undergraduate students have had unique research opportunities such as mathematics of counterterrorism and mathematics of the Rubik's Cube.
